

PANELS***Can I have a 20mm thick panel?***

Our panels are available in 20mm, 24mm and 28mm thicknesses.

What colours are your panels available in?

Skin colour options available are oak, rosewood, Black Cherry (euromont), 013 & 021 mahogany, cream and white which are available colour matched to profile. We also offer embossed grained panels in green, white & cream.

What is your flat panel size?

Flat panel sizes are 2050mm x 850mm and 2200mm x 1000mm.

Wood grain flat panel sizes are 2050mm x 850mm and 2200mm x 1000mm.

What do you use as reinforcing?

Our standard 20mm – 28mm panels have 9mm Moisture Resistant (MR) Medium Density Fiberboard (MDF) reinforcing, and our 3 metre flat panels have 4mm Medium Density Fiberboard (MDF).

What do I use to clean the panel?

We insist that only a soft cloth in soapy water be used to wipe the panel down. For any furniture fitted to the panel we also advise that it is wiped down on a monthly basis.

Do you offer any other glass designs other than those in your brochure?

All the glass designs we offer can be found in our brochure, though if you do not see what your looking for then please contact us.

What are your overall moulding widths?

The average moulding width is 475mm, which offers the installer flexibility especially in tight situations. Please download the 'Dimension Sheet' PDF for more information.
